

Aquarino™ Xclusive Protection™ Warranty

At Aquarino, we pride ourselves on having the highest manufacturing standards, experienced pool installation teams, outstanding colour variety, industry-leading customer service, best in class fiberglass pools and our Aquarino Xclusive Protection Warranty (the “Warranty”).

1. WARRANTY TERMS

This document contains the terms and conditions of Aquarino’s Xclusive Protection Warranty, covering your Fiberglass Pool’s structure and gel coat. Read it carefully, as there are important warranty conditions, limitations, and exclusions from coverage.

Your contractor is not an employee or representative of Aquarino. Aquarino is not bound by any guarantees, warranties or representations, or any change to this Warranty made by your contractor, installer or any other person who is not an authorized corporate officer of Aquarino.

The manufacturer’s warranty on the Fiberglass Pool’s equipment (filter, pump, heat pump, etc.) is offered by the respective manufacturers (example Hayward®, Pentair® etc.) and Aquarino does not provide any warranty coverage on such equipment.

2. WARRANTY CONDITIONS

This Warranty is applicable to Fiberglass Pools installed within Canada and the continental United States on or after April 1st, 2021. Aquarino reserves the right to change the terms of this Warranty at any time. The Warranty terms in effect at the time of installation of your Fiberglass Pool will constitute the Warranty that is applicable to you. The most current version of this Warranty is available online at www.Aquarino.ca. If you have questions about coverage, contact Aquarino directly for assistance.

Warranty Registration

This Warranty is only valid if you register your purchase online at Aquarino.ca within thirty (30) days of installation of your Fiberglass Pool. A proof of purchase and an image/photo of the project are required for registration. This Warranty is not applicable as long as the owner has any outstanding amounts due to Aquarino.

Warranty Transfer

The original owner may transfer this Warranty to the individual purchasing the property on which the Fiberglass Pool was installed (the ‘Transferee’), in accordance with the terms set out in this section. In the absence of a permissible and valid transfer of the Warranty as set out herein, the Warranty ends on the sale or other transfer of title to the Fiberglass Pool.

This Warranty may be transferred once (one-time transfer) to the purchaser of the property where the Fiberglass Pool has been installed. To validate the transfer of the Warranty from the Owner to a Transferee during the Product Lifetime, the Transferee must register their transfer

of ownership by filling out the online form on the warranty page at Aquarino.ca, within 30 days of the completion of the real estate transfer, and the transfer request must be accompanied by i) a copy of the original sale contract for the Fiberglass Pool, and ii) a copy of the transfer documents for the property where the Fiberglass Pool was installed.

3. WARRANTY COVERAGE

This Warranty is divided into two parts: a warranty covering manufacturing defects for all the elements and materials that form the fiberglass framework of the pool to ensure the shape, strength or structural integrity of the shell of the Fiberglass Pool (the “**Structural Warranty**”), and a warranty covering manufacturing defects in the coating of the Fiberglass Pool (the “**Aquaradiance Warranty**”).

A) Structural Warranty - Coverage

During the Structural Lifetime, if the owner discovers a defect in the manufacture of the Fiberglass Pool Structure causing failure of the structure to hold and retain water, due to faulty workmanship or materials used in the manufacture of the pool shell, Aquarino will supply all labour and materials required to either repair, or at Aquarino’s option, replace and dispose of the defective Fiberglass Pool.

All structural repairs shall be performed by Aquarino, or personnel authorized by Aquarino, using the same-coloured materials as used on the original pool shell, if available. If such colour materials are not available, Aquarino will use the closest match available at that time.

Aquarino does not warrant the pool shell for damage resulting from misuse, negligence, misconduct, accident, or acts of God including, but not limited to, floods, landslides, or earthquakes; or damage to the pool shell resulting from improper site drainage. Surface water should be diverted away from the pool.

Structural Warranty - Conditions

The owner must comply with the obligations described below to benefit from the application of the Structural Warranty:

- Fill the pool up to three quarters of the skimmer, within 8 hours of its installation and maintain the water level within these parameters at all times.
- Verify the drywell regularly to ensure that any water accumulated is evacuated via the use of a portable pump. This verification is particularly important following heavy rainfalls and immediately preceding winterization of the pool (when the water level of the pool will be reduced). To this end, it is essential that winterization instructions provided by the manufacturer are adhered to strictly.
- Ensure that proper electricity work to supply the pool accessories is carried out by a certified electrician and retain evidence of such.

- Avoid adding equipment or components to the Fiberglass Pool not sold with the pool, without prior written authorization from Aquarino.
- Prevent spillage of any chemical that could affect the structure of the Fiberglass Pool or cause its perforation.

B) Aquaradiance Gel Coat Warranty - Coverage

Aquarino warrants to the owner that the finish coat or gel coat will be free of osmosis blistering for a total of five (5) years from the date of installation of the Fiberglass Pool.

Aquaradiance Gel Coat Warranty - Exclusions

Aquarino makes no warranty regarding the finish of the Fiberglass Pool against discolouration, staining, fading, hairline cracks, surface roughness, or surface yellowing; or the finish of the Fiberglass Pool against calcium scale, whitening, or mineral deposits on the surface of the pool. Furthermore, the damage, degradation, breakage and alterations listed below are not caused by manufacturing defects and are not guaranteed by, nor are they the responsibility of Aquarino:

- Any damage caused by rust caused by fragments of metal or other material carried in one way or another in the Fiberglass Pool.
- Rust, stains or any other change in appearance of the coating due to the use of non-recommended chemical or overuse of a product otherwise suitable for the treatment of swimming pool water or by accidental or non-accidental spillage of any incompatible substance or product.
- Dents, holes, streaks or scratches caused by any object or material or the use thereof.

Aquaradiance Gel Coat Warranty - Conditions

The owner must comply with the obligations described below to benefit from the application of the Gel Coat Warranty:

- Ensure that no fragments of any metal are in the Fiberglass Pool, any such fragments will corrode on contact with water and damage the coating of the Fiberglass Pool. The owner will therefore be well advised not to cut or saw any fence, paving or concrete near the pool or to leave any rusty object around the pool.
- Take care not to leave clumps of tree leaves in the pool water for long periods of time or other residue that may discolour in the water or stick to the pool siding.
- Perform regular maintenance, in particular by vacuuming and frequently removing from the Fiberglass Pool any materials, waste, residues, plants that may be found there.
- Before winterizing the pool, balance the chemistry of the water to avoid stains and scaling.
- Maintain the chlorination, hardness, pH and alkalinity of the water within the following parameters:

Chlorination	1 ppm +/- 0.5 ppm
Hardness	190 ppm +/- 30 ppm
PH	7.5 +/- 3
Chlorine stabilizer	55 ppm +/- 15 ppm
Alkalinity	90 ppm +/- 10 ppm

For this purpose the owner shall ensure that the Fiberglass Pool water is tested once a month by a recognized pool maintenance company and shall keep the results of these tests for review during the duration of this Aquaradiance Warranty.

C) Watertight Integrity of Components Installed in the Factory

Accessories installed in the factory (skimmer, water returns, drain) are linked to the Fiberglass Pool via rigid pipes. Connections of these pipes are subject to pressure exerted during freeze/thaw periods generated by changing seasons. Consequently, Warranty coverage for these connections will expire after the first year following the installation of the pool.

D) Installation Warranty

Conditions pertaining to the installation warranty are contained in your installation warranty contract. Please refer to the relevant installation contract for more information.

4. VOIDING OF WARRANTY

Any claim under this Warranty shall immediately become null and void in any of these events:

- Where the owner deliberately, or negligently misrepresents or withholds any material fact from Aquarino;
- If the damage is caused by the owner or any third-party contractor during the laying or installation of any concrete sidewalk, paving stone or any other work carried out around the Fiberglass Pool following or during its installation;
- Any breakage, alteration or perforation caused by a reaction with any incompatible chemical product;
- Any repair to the Fiberglass Pool when required, must be completed by Aquarino or a repair company approved by Aquarino. Any repair completed without adhering to the above will nullify application of the Warranty.

Right of Substitution

If the Fiberglass Pool purchased by the Owner is no longer available at the time of the Owner's warranty claim, Aquarino reserves the right to substitute another Fiberglass Pool of similar character and quality.
